DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7 and 10, drawn to compositions and methods comprising bases 1-80 or the entire SEQ ID NO:1.

Group II, claim(s) 2-7 and 11, drawn to compositions and methods comprising bases 1-86 or the entire SEQ ID NO:2.

Group III, claim(s) 8, 9, 12-15, drawn to compositions and methods comprising SEQ ID NO:4.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: They are drawn to different products, the products of SEQ ID NO: 1, 2 and 4.

MPEP 1875.01 restates 37 CFR 1.475(b): "An international or a national stage application containing claims to different categories of invention will be considered to have unity of invention if the claims are drawn only to one of the following combinations of categories...."; 37 CFR 1.475(d): "If multiple products, processes of manufacture or uses are claimed, the first invention of the category first mentioned in the claims of the application and the first recited invention of each of the other categories related thereof will be considered as the main invention in the claims...."

In the instant case, the claims are drawn to multiple products: SEQ ID NOS: 1, 2 and 4, and since each nucleic acid sequence is considered a chemical alternative, where the alternative sequences do not share the same common core structure (nucleic acid sequence structure) and therefore have different functional mechanics and do not share a common property or activity since the sequences function differently based on the different core structure.

Art Unit: 1635

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mary M. Schmidt, whose telephone number is (703) 308-4471.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John LeGuyader, may be reached at (703) 308-0447.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group Analyst, Kay Pinkney, whose telephone number is (703) 305-3553.
